It is time for changes

The Republican Incumbent, soon after being appointed Supervisor by Governor Jeb Bush in 2000, purged over 20,000, mostly Democratic, registered voters from our voter lists at the request of Katherine Harris, Florida's infamous Secretary of State. Imagine how the world would be different today if she had been dedicated to Democracy instead of partisan masters.

My simple promise to the citizens of Pinellas County: I will lead the Office of Supervisor of Elections with honesty, integrity and an openness that is verifiably trustworthy.
